Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

2.0   Introduction

Section IV of the IFPS13 Release Notes includes the Tracking Numbers and Titles of outstanding IFPS problems scheduled to be fixed in a future release of IFPS.   You may obtain more detailed descriptions about these and other problems from the MDL IFPS Product Improvement Page at http://www.nws.noaa.gov/mdl/improvement/. Once you are at the Product Improvement page, select IFPS from the Applications drop-down menu and the appropriate release of IFPS from the Release drop-down menu.

2.1   Installation

Tracking Number(s):   FR762 / SPR3840
Title: Minor error during deinstall

Tracking Number(s):   FR793 / SPR3907
Title: GFE ISC install fails on ds2.

Tracking Number(s):   FR839 / SPR4076
Title: ifps-ccc.env not updated with doc block for
                               NUMEXTPD during install

Tracking Number(s):   FR830 / SPR4208
Title: Missing 12 hr periods for marines products in
                               installation unl file

Tracking Number(s):   FR978 / SPR4382
Title: The IFPS12 Install fails to restart the IFP Server Watcher

Tracking Number(s):   FR1047 / SPR4607
Title: GFESuite tar file incorrect on IFPS12.1 Patch CDs

Tracking Number(s):   No FR # / SPR4638

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Title: IFPS install scripts misspell ifps_mosingest_crontab.sh

Tracking Number(s):   No FR # / SPR4639
Title: IFPS12.2 Patch Install Attempts to Update the Database
as User Root

Tracking Number(s):   No FR # / SPR4663
Title: ISC is not installed by the IFPS patch/upgrade script

Tracking Number(s):   FR1140 / SPR4797
Title: need to preserve HP version of time_series during IFPS
installs

2.2   Initialization

Tracking Number(s):   FR800 / SPR3349
Title: MRF Cloud Coverages in Mexwx need a display of 12
hours in GFE.

Tracking Number(s):   FR617 / SPR3470
Title: Explicit Weather Grids' start times are slightly off for
MRF, NGM, AVN MOS guidance.

Tracking Number(s):   FR723 / SPR3563
Title: Invalid grid to Parm name translation errors in Mexwx
logfile.

Tracking Number(s):   FR724 / SPR3564
Title: Invalid Conversion of Explicit Weather values

Tracking Number(s):   FR651 / SPR3639
Title: Add new threshold descriptions to cntrl_desc.unl file for
Mexwx.

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR834 / SPR4103
Title: AVN MOS cronjob

Tracking Number(s):   FR899 / SPR4191
Title: Erroneous file reference in cronjobs

Tracking Number(s):   FR914 / SPR4203
Title: MOS wind direction problems around N

Tracking Number(s):   FR1136 / SPR4793
Title: I   Run HPC guidance ingest twice

2.3   Master Menu

Tracking Number(s):   FR731 / SPR3756
Title: Master Menu allows you to select button twice at once

Tracking Number(s):   FR961 / SPR3872
Title: Double pixmap showing on master menu

Tracking Number(s):   FR985 / SPR4405
Title: Mouse cursor may become captured inside traffic light

Tracking Number(s):   FR1139 / SPR4796
Title: Master Menu working cycle not updating automatically.

2.4   Model Interpretation

Tracking Number(s):   FR194 / SPR2223
Title: Slider data file collision

Tracking Number(s):   FR647 / SPR3523
Title: Slider crashes with specific selection order

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR1020 / SPR4511
Title: Slider labels not properly located

Tracking Number(s):   FR1014 / SPR4516
Title: Slider windows missing dark blue backgrounds

2.5   Grid Editing

Tracking Number(s):   FR728 / SPR3713
Title: sexwx leaves locks in FCST grids

2.6   Data Transformations

Tracking Number(s):   FR118 / SPR2139
Title: Use of Smart Tools during sprayback

Tracking Number(s):   FR710 / SPR3806
Title: Text formatter does not include probability and/or areal
                                        coverage term for each weather type

Tracking Number(s):   FR792 / SPR3980
Title: RAP 10.4: IFPS - once LE's from GFE are dumped into
                                        zones, they can not be removed

Tracking Number(s):   FR897 / SPR4172
Title: IFPS: Station->Grid sprayback produces bogus values

Tracking Number(s):   FR945 / SPR4303
Title: Guidance windows are not being created reliably

Tracking Number(s):   FR1040 / SPR4565
Title: unld_to_zns consuming CPU on lx1

2.7   Zone Combinations

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):	FR1016 / SPR4522
Title:	ICS windows missing dark blue backgrounds
Tracking Number(s):	FR1034 / SPR4557
Title:	ICS crashes when displaying zone name > 100 chars
Tracking Number(s):	FR1035 / SPR4558
Title:	topography incorrect at OCONUS offices

2.8   Matrix Editing

Tracking Number(s):	FR128 / SPR2137
Title:	IFPS: IGR to display the 3-hourly data when in 12 hour resolution
Tracking Number(s):	FR129 / SPR2138
Title:	Island zones to be continuous
Tracking Number(s):	FR117 / SPR2140
Title:	Animate ISC Matricies
Tracking Number(s):	FR146 / SPR2141
Title:	Periodic automatic data save
Tracking Number(s):	FR467 / SPR3063
Title:	ISC Crashes IGR
Tracking Number(s):	FR469 / SPR3093
Title:	IGR Full Matrix Needs Default Sizability
Tracking Number(s):	FR531 / SPR3160
Title:	IGR crashes if marine stations DFMs not present
Tracking Number(s):	FR639 / SPR3429

Section IV: IFPS13 Release Notes   Last Updated on February 12, 2003
Outstanding IFPS Problems to be Fixed
in a Future Release

Title: IGR's print option does not work

Tracking Number(s):   FR729 / SPR3723
Title: Station model plots messed up during animation.

Tracking Number(s):   FR761 / SPR3842
Title: IGR LE matrix label too small

Tracking Number(s):   FR867 / SPR4146
Title: IGR does not correctly display weather elements in 6-h
                                         mode

Tracking Number(s):   FR943 / SPR4305
Title: QC highlight problem with full matrix

Tracking Number(s):   FR1017 / SPR4526
Title: OB1 IGR Full Matrix Selector missing dark blue
                                         background

Tracking Number(s):   FR1018 / SPR4536
Title: IGR label cut off

Tracking Number(s):   FR1062 / SPR4653
Title: IGR fails to display new zone after CWA change

Tracking Number(s):   FR1143 / SPR4800
Title: Station IGR depends on combination map

Tracking Number(s):   FR521 / SPR799
Title: IFPS: Zones, while using play buttons data can be
                                         editted

Tracking Number(s):   FR513 / SPR812
Title: IFPS: animate ISC matricies within IGR

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

2.9   Matrix Quality Control

Tracking Number(s):   FR346 / SPR2507
Title: Enhance QC program to be able to compare 3hr temps
                                    with max/min

2.10   Product Generation

Tracking Number(s):   FR134 / SPR1771
Title: IFPS: prod_hdr fails for TSFP if top_route is no

Tracking Number(s):   FR33 / SPR2111
Title: Allow a separator line within Product Generation Menu

Tracking Number(s):   FR108 / SPR2191
Title: SFP header contains the word UPDATED for routine
                                    issuances

Tracking Number(s):   FR527 / SPR2357
Title: IFPS: slider should be updated for new
                                    f-table/cntrl_const read routin

Tracking Number(s):   FR468 / SPR3084
Title: RAIN & SNOW are not formatted Correctly

Tracking Number(s):   FR471 / SPR3095
Title: Freezing Drizzle is Formatted when None is in /////////igr

Tracking Number(s):   FR736 / SPR3948
Title: "THEN" wording at the end of the sentence.

Tracking Number(s):   FR812 / SPR4048
Title: IFPS: Very HOT(G) does not appear in the extended of

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

CCF

Tracking Number(s):   FR824 / SPR4060
Title: Selecting Help->Overview from product generation
menu does nothing

Tracking Number(s):   FR892 / SPR4207
Title: isolated reports of prod_hdr hanging.

Tracking Number(s):   No FR # / SPR4353
Title: wccf fails to warn user that they are past the cutoff time.

Tracking Number(s):   FR1012 / SPR4553
Title: Extended Period Combine Problem

Tracking Number(s):   FR1029 / SPR4556
Title: products not using correct data in PR

Tracking Number(s):   FR1031 / SPR4604
Title: Incorrect Wind Adjectives

Tracking Number(s):   No FR# / SPR4744
Title: ZFP Header Does Not Have Correct Site During Service
Backup

Tracking Number(s):   FR1144 / SPR4801
Title: AFD need $$

2.11 Zone Forecast

Tracking Number(s):   FR173 / SPR2206
Title: Blowing dust disappears with pcpn

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR44 / SPR2250
Title: Change from flurries to snow showers doesn't split
                                        period

Tracking Number(s):   FR529 / SPR2636
Title: LE phrase truncated in ZFP is > 51 characters

Tracking Number(s):   No FR # / SPR3836
Title: Unused arguments in phraser

Tracking Number(s):   No FR # / SPR3837
Title: Logic problem in phraser

Tracking Number(s):   FR760 / SPR3884
Title: detupchnges reports combo mismatch error

Tracking Number(s):   FR746 / SPR3952
Title: Incorrect precipitation phrase for specific case.

Tracking Number(s):   FR708 / SPR3990
Title: Local effects not correct if base area has temp range and
                                        LE doesn't

Tracking Number(s):   FR810 / SPR4042
Title: Wildcards --Heat indices produces Frequent gusts
                                        wording

Tracking Number(s):   FR838 / SPR4104
Title: Haze and Smoke Problems in Text Forecast ans ZFP
                                        Products

Tracking Number(s):   FR905 / SPR4196
Title: Issues with wind ranges (8-15 MPH)

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR907 / SPR4198
Title: Incorrect wind direction in wind phrase

Tracking Number(s):   FR913 / SPR4202
Title: "0 MPH" error in wind phrase

Tracking Number(s):   FR664 / SPR4209
Title: wind control constant descriptions unclear

Tracking Number(s):   FR926 / SPR4285
Title: "Light winds" phrase still appears when supposed to be singular

Tracking Number(s):   FR965 / SPR4315
Title: ZFP wind values are not being averaged

Tracking Number(s):   FR948 / SPR4349
Title: Incorrect time phrase with increasing wind speed phrase

Tracking Number(s):   FR949 / SPR4350
Title: Increasing/decreasing wind phrases not being produced based on site control constants

Tracking Number(s):   FR1056 / SPR4634
Title: SAF fails if UGCs in neighboring ZFPs are out of order

Tracking Number(s):   FR1058 / SPR4648
Title: Obvis phrase is incorrect

Tracking Number(s):   FR1059 / SPR4649
Title: Inconsistent Temperature Phrases

Tracking Number(s):   FR1064 / SPR4667
Title: Temp_control constant #20 is not working correctly.

Section IV: IFPS13 Release Notes   Last Updated on February 12, 2003
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   No FR# / SPR4715
Title: Snow Levels fail to generate correct phrases

Tracking Number(s):   FR1137 / SPR4794
Title: Steady temperature phrase uses unexpected temperatures

Tracking Number(s):   FR1141 / SPR4798
Title: Updates create new words when combinations are
                                 changed.

2.12 Service Area Forecast

Tracking Number(s):   FR53 / SPR1235
Title: Incorrect handling of deselected combos in SAF updates

Tracking Number(s):   FR67 / SPR1854
Title: rcmd_remap falsely reports combo change

Tracking Number(s):   FR516 / SPR224
Title: Inefficient use of the extended portion of the DFM

Tracking Number(s):   FR535 / SPR2495
Title: rcmd_remap attempts to access combo_dfm in 'mix'
                                 mode

Tracking Number(s):   FR611 / SPR3586
Title: cities included in SAF no longer random

Tracking Number(s):   FR730 / SPR3746
Title: During SAF update, all towers are formatted

Tracking Number(s):   FR769 / SPR3982
Title: SAF extended line should be configurable

Section IV: IFPS13 Release Notes   Last Updated on February 12, 2003
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR990 / SPR4427
Title: Problems if mk_brt is run before SAF

Tracking Number(s):   FR1043 / SPR4569
Title: SAF extended intro phrase is hard coded

Tracking Number(s):   FR1049 / SPR_4612
Title: SAF may ignore WRKZFP changes with WWAs in
                               effect

Tracking Number(s):   FR1142 / SPR4799
Title: IFPS: SAF Truncation

2.13 Marine Products

Tracking Number(s):   FR557 / SPR3270
Title: Need ability to select abbreviated wind direction or the
                               full word for all marine fcsts.

Tracking Number(s):   FR614 / SPR3506
Title: Extra spaces when wind phrase dropped from marine
                               products

Tracking Number(s):   FR584 / SPR3825
Title: Marine formatter should create a coded MAFOR with
                               the GLF product.

Tracking Number(s):   FR794 / SPR3865
Title: Site wants "Average Seas" formatted instead of "Seas"

Tracking Number(s):   FR759 / SPR3966
Title: Marine formatter needs another wave control constant

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR789 / SPR4019
Title: MVF product has extra space between lines and saves to textdb incorrectly

Tracking Number(s):   FR804 / SPR4037
Title: Marine hazards are not formatted in the AFD product

Tracking Number(s):   FR827 / SPR4057
Title: Transitional visibility phrase format repititious precipitation phrase.

Tracking Number(s):   FR826 / SPR4058
Title: mwnd_control 24 not working and may conflict with mwnd_control 18 and 36.

Tracking Number(s):   FR825 / SPR4059
Title: "BACKING" will not format in marine wind phrases

Tracking Number(s):   FR845 / SPR4082
Title: VSBY formats transitions incorrectly

Tracking Number(s):   FR850 / SPR4088
Title: Marine formatter references "ZFP" in error message

Tracking Number(s):   FR895 / SPR4168
Title: Addition of combined seas control constant

Tracking Number(s):   FR894 / SPR4169
Title: Flexible sea state wording

Tracking Number(s):   FR745 / SPR4211
Title: New wind category Hurricane Force wind and change defintion of Storm Warning

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR718 / SPR4213
Title: Marine formatter does not allow multiple synopsis and
                         outlook sections

Tracking Number(s):   FR924 / SPR4238
Title: KT in IGR, KNOTS in CWF

Tracking Number(s):   FR942 / SPR4306
Title: Temporal change in Marine WWA does not update
                         correctly

Tracking Number(s):   FR1060 / SPR4650
Title: Incorrect CWF phrase

Tracking Number(s):   FR1086 / SPR4713
Title: IFPS: Marine Wildcards are dropped when another
                         precip type is not in forecast

2.14 Fire Weather

Tracking Number(s):   FR558 / SPR3197
Title: FWF should have the ability to use scale factors and
                         offsets to convert

Tracking Number(s):   FR628 / SPR3407
Title: FWF should chop off label at label_col_width-1

Tracking Number(s):   FR629 / SPR3468
Title: FWT unused and duplicate code should be cleaned up.

Tracking Number(s):   FR633 / SPR3469
Title: FWT formatter is limited to a max of five12-hour "early"
                         and five 24-hour "extended" periods.

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR799 / SPR3657
Title: FWT should use scale_factor and offset

Tracking Number(s):   FR798 / SPR3736
Title: FWT should skip last 12 hr period

Tracking Number(s):   FR797 / SPR3737
Title: FWT need range and rounding cntrl_const for extended

Tracking Number(s):   FR757 / SPR3963
Title: FWX configuration precip begin, end, duration problem

Tracking Number(s):   FR765 / SPR3971
Title: FWT TSTM probabilities are not handled correctly

Tracking Number(s):   FR774 / SPR3995
Title: Remove use of IRCONST for FWF product

Tracking Number(s):   FR960 / SPR3996
Title: Add range capabilities to FWT

Tracking Number(s):   FR959 / SPR3997
Title: Add range capabilities for trend for FWF, FWT

Tracking Number(s):   FR778 / SPR3999
Title: Config_fwx_prods cancel behaves inconsistently

Tracking Number(s):   FR802 / SPR4036
Title: FWT product is not using holiday names in extended

Tracking Number(s):   FR858 / SPR4095
Title: FWT values (RH) are sometimes one less than grid value

Tracking Number(s):   FR860 / SPR4110

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Title: Firewx zones formatted in multiple zone combinations

Tracking Number(s):   FR928 / SPR4170
Title: FWM should have error checking for cntrl_const

Tracking Number(s):   FR1080 / SPR4675
Title: FWM product needs date and station number swapped

Tracking Number(s):   FR1081 / SPR4676
Title: FWM cannot properly format below zero temps

Tracking Number(s):   No FR# / SPR4701
Title: Missing BAT files in Fire Weather Makefiles

Tracking Number(s):   No FR# / SPR4723
Title: SQL prob / wrong entry coming from cntrl_const.unl file.

Tracking Number(s):   FR1127 / SPR4790
Title: FWM should include wind speed

Tracking Number(s):   FR1130 / SPR4791
Title: FWM product not found after generation

2.15 Tabular Products

Tracking Number(s):   FR62 / SPR1659
Title: Group #10 in efpc_const obsolete

Tracking Number(s):   FR145 / SPR3234
Title: Last period of the line formatted in the MRF style

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR747 / SPR3953
Title: Data offset between FTP and RDF products

Tracking Number(s):   FR665 / SPR4210
Title: RDF loses today when RDF_UPD set to 1

Tracking Number(s):   FR964 / SPR4217
Title: permission problems on /data/adapt/ifps/products/TEXT

Tracking Number(s):   FR920 / SPR4231
Title: RDF formats 999 for temperature ranges

Tracking Number(s):   FR880 / SPR4307
Title: RDFZ Product

Tracking Number(s):   FR1101 / SPR4735
Title: CCF BLIZZARD PROBLEM

Tracking Number(s):   FR1135 / SPR4792
Title: Use of "=" at the end of the CCF

Tracking Number(s):   FR1138 / SPR4795
Title: TSFP problems with mix length CCFs

2.16 Gridded/Graphical Products

None

2.17 Aviation

None

2.18 Service Backup

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

Tracking Number(s):   FR898 / SPR4177
Title: TSFP not created for failed site in Service Backup

Tracking Number(s):   No FR# / SPR4716
Title: SvcBu import needs early check for version file

Tracking Number(s):   No FR# / SPR4743
Title: Service Backup Fails to Update Site and Port Number

2.19 Customization

Tracking Number(s):   FR29 / SPR2134
Title: Allow cursor to draw climatology curve

Tracking Number(s):   FR182 / SPR2204
Title: Attempts to remove slight chance failed.

Tracking Number(s):   FR528 / SPR2445
Title: CWA change - problems when 1 zone in 2 counties
                        moves

Tracking Number(s):   FR578 / SPR3431
Title: Need to be able to control which products appear in the
                        other control const GUI

Tracking Number(s):   FR577 / SPR3449
Title: select_wfos fails in cwa_change

Tracking Number(s):   FR624 / SPR3529
Title: dumpgrids should query ifpServer for list of grids

Tracking Number(s):   FR677 / SPR3682
Title: CWA change removes site's brdrpts files if national files

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release

are not present

Tracking Number(s):   FR679 / SPR3684
Title: Some CWA change situations not properly handled for
                        FWX and Marine

Tracking Number(s):   FR726 / SPR3711
Title: QC Rules located in two different places in IFPS Config

Tracking Number(s):   FR727 / SPR3712
Title: Customize Categorical Elements asks to save upon
                        startup

Tracking Number(s):   FR739 / SPR3950
Title: start_wwasetup.bat is missing xhost +

Tracking Number(s):   FR771 / SPR3992
Title: config_ifps Add Station/Tower option gives SQL error

Tracking Number(s):   FR780 / SPR4001
Title: CWA change should store several backups of data

Tracking Number(s):   FR781 / SPR4002
Title: CWA change allows for double loading of dbx files

Tracking Number(s):   FR783 / SPR4004
Title: Make sure proper directories exist for CWA change

Tracking Number(s):   FR958 / SPR4005
Title: CWA Change should have option to update all attributes

Tracking Number(s):   FR863 / SPR4109
Title: ModClimo Save Problem

Section IV: IFPS13 Release Notes   **Last Updated on February 12, 2003**
Outstanding IFPS Problems to be Fixed
in a Future Release
